

Geoffroy DAUMER

Full-Stack and AI Engineer – Dual expertise in the digital and healthcare sectors

34070 Montpellier, France | 07 82 25 93 68 | geoffroy.daumer@outlook.fr |

[linkedin.com/in/geoffroy94](https://www.linkedin.com/in/geoffroy94) | github.com/gdaume24

With 4 years of experience in AI and Software Development, I offer a unique background combining life sciences and computer science. I possess a strong mastery of **Java Spring**, **C# .NET**, and **Python** ecosystems. Expert in bridging the gap between healthcare data requirements and scalable software solutions, I am ready to tackle high-performance engineering challenges within a collaborative team.

TECHNICAL SKILLS

- **Languages:** Java, Python, C#, TypeScript, SQL, noSQL, Shell (Bash), Groovy.
- **Frameworks:** .NET Core, Spring Boot, FastAPI, Angular, React Native.
- **Data & AI:** Scikit-learn, TensorFlow, NLP pipelines, LLMs, Automation (n8n).
- **Tools & Cloud:** Github, Docker, GitHub Actions, AWS, Azure, GCP, Katalon Studio.
- **Methodologies:** TDD (Test Driven Development), Clean Code, SOLID, Unit/Integration/E2E Testing.
- **Soft Skills:** Agile Methodology, Cost Estimation, Risk Assessment, Technical Scouting.

PROFESSIONAL EXPERIENCE

2CConseil | Software & QA Engineer | 2024/2025

- **QA Automation:** Automated web test scenarios using Katalon Studio to significantly optimize error detection and deployment reliability.
- **AI Innovation:** Conducted in-depth technical scouting for AI Chatbots and developed prototypes for business integration.
- **Bug Tracking:** Implemented a comprehensive bug-tracking dashboard to streamline anomaly management during development phases.
- **Team Training:** Mentored development teams on best practices for test automation and software quality assurance.
- **Mobile Development:** Developed mobile applications using React Native.

Caen University Hospital (CHU) | AI Engineer | 2023/2024

- **Medical Data Extraction:** Engineered an AI-driven application to automate the extraction of medical data from unstructured clinical reports.
- **Data Pipelines:** Built automated data pipelines to process sensitive medical documents into structured datasets.
- **Performance Evaluation:** Evaluated NLP extraction algorithms using reference statistical methods to ensure clinical-grade accuracy.

Bolaidor, Cémoi, Roval | Quality Control Technician (Laboratory) | 2020

- Conducted visco-chemical and microbiological analyses to ensure production compliance with strict industrial safety and quality standards.

EDUCATION

- **MSc: Software Engineering Expert (Java / Angular)**
OpenClassrooms | 2024 – 2025 (RNCP Level 7)
- **BSc: Artificial Intelligence Developer**
ISEN x Simphon - Caen | 2022 – 2024 (RNCP Level 6)
- **BSc in Life & Health Sciences**
University of Caen | 2015 – 2019
- **Scientific Baccalaureate (Mathematics Specialty)**
Lycée des Andaines | 2012 – 2015

PROJECTS

- An n8n pipeline for automatically generating CVs based on a job vacancy, including formatting of CVs and cover letters, and sending them as PDFs to Google Drive, using GPT agents and Google.
- Full-stack solution to evaluate the need for mental health treatment in workplace environments based on answering a questionnaire (Exploratory Data Analysis, Scikit-learn IA model, Streamlit, FastAPI).
- Python/Selenium automation: Application for automating the upload of music files to a music sales platform from folders containing MP3 files and album covers. Interface with Tkinter.

CERTIFICATIONS & INTERESTS

- **Certifications:** Microsoft Certified: Azure AI Fundamentals | Agile Methodology (RS5487).
- **Languages:** English (Professional/Fluent) | French (Native).
- **Interests:** Sports, Reading, Music, I like to try new things and meet people.
